Chad,

Roy meant to say our sampling effort continued for 3.5 weeks through FEBRUARY 15th. -- Terri

No problem Chad --

EPA is planning to release sampling results to the home owners on a weekly basis in the order in which the homes were sampled. Our sampling effort began the week of January 23rd and continued for three and half weeks through March 15th. At this time we are providing results on the 11 wells sampled during the week of January 23rd. EPA has collected samples from 61 homes.

Hi Roy, sorry to pester you but I just need clarification on two things before I can get my story in:

- □ □ □ □ Is EPA planning to still test 60 wells in Dimock?
- □ □ □ □ When is the next round of testing results expected to be released?

Thanks,

Chad Woodworth
